

# Make life easier...

## with optimum efficiency only from Florigo

### Easy to use

Unlike some "high efficiency" pans with intrusive heat exchangers running through the oil, Florigo's HE-Plus has a unique high efficiency surround burner that leaves the pan clear for free frying larger quantities. Basket or free fry, the choice is dictated by you, not the range.

### Easy money saving

Florigo's High Efficiency-Plus system is over 90% efficient – cutting your gas bills by more than 50% compared with traditional fryers.

### Easy clean

Time is money and Florigo's tried and tested design provides fast, easy cleaning. Single sheet stainless steel top, with no joins or crevices, combined with seamlessly welded pans with no internal heat exchangers, cut cleaning time in half and ensure optimum hygiene.

### Easily the best results every time

100% visibility with even heat distribution throughout the pan, together with Florigo's industry leading built-in oil filtration system, guarantee perfectly cooked fish and chips.

### Easily the finest tailor-made range

Whatever configuration you require, Florigo's advanced cad cam design, coupled with highly skilled craftsmanship, ensure that your range is hand-built to meet the precise needs of your business. Above all, Florigo's superb engineering and unmatched build quality, mean years of trouble free frying.

### Rest easy

For complete peace of mind, routine servicing and repair is available nationwide by highly trained Florigo engineers.
